MISSION

The "Say it Loud" newsletter's mission is to present "food for thought" articles relating to education and culture with the objective of promoting a Global Village Mindset (GVM). "Say it Loud" will host opinions and advice from leading experts as well as interested citizens (*further to editorial review*). The *Starlight Educultural Institute*, S.E.I, will be using the newsletter as part of its research and promotional initiatives into the above aspects of society to contribute to a more mature Earth civilization. You are invited to join us as sponsors or supporters, and even as readers of this newsletter to "Say it Loud" to the world.

"KNOWLEDGE IS POWER. INFORMATION IS LIBERATING. EDUCATION IS THE PREMISE OF PROGRESS, IN EVERY SOCIETY, IN EVERY FAMILY." – KOFI ANNAN

Overnight wealth, such as selling the family property or winning a lottery, will be a boon to all concerned, and sometimes to society itself. However, because it comes "overnight", it usually leads to problems. Problems such as deciding what to do with all that wealth. Problems with relatives, current or long-lost or "new", who expect a fair share of the loot. Problems with authorities wanting their fair share through taxation or other exorbitant fees. Problems with con artists who see you as fair game to cheat you. And eventually, problems with who to trust for guidance. So, what to do ? How to do ? Check out more details on our website at <http://sei.starlight.ca/.....> *Dr.J.*

S.E.I's GVM needs you if it is to succeed. Join us now ! ...visit our website to see how you can "pen up" to help in making a better place to live.

GVM ? It's an initiative to change people's thinking about diversity in our world, to build a deeper appreciation of the many different cultures that make up our civilization. GVM will be backed by ongoing research on issues of education, culture and behaviour.

Winter 2015

Changing the world is now a more complex endeavour in this Global Village era, so solving the world's problems now takes “ensembles”, not just “soloists”. “No single individual, organization, corporation, foundation, or nation can solve the significant problems of the world. So let’s stop looking for heroes to address the important issues of our day. Instead, let’s focus on bringing together the teams of organizations and individuals that must collaborate to address problems.” (October 2, 2014, Jeffrey Walker, Vice Chairman, United Nation's Secretary General's Envoy for Health Finance and Malaria) Global problem solving is part of S.E.I’s mission... and **vision**.

S.E.I Vision

Create caring citizens’ synergy groups to enable participants to “live a life richer than they can imagine” through economies-of-scale initiatives in housing, education and others aspects of Global Village living.

Senior Comfort

What is it that makes seniors feel comfortable in their retirement years ? For too many it’s about having more time to relax and catch up on sleeping in, resigned to accept society’s decision that they are a burden. Thankfully there are more and more who use their now extended free time to pursue more assertively their hobbies... or their hitch to travel, or to get more involved in their grand-children’s upbringing. But for an expanding group it is about taking this time as a gift for them to undertake valorizing activities... to do things as part of a team, of a group, who make a difference, who contribute to society’s maturing into a truly civilized Global Village... S.E.I. *Dr.J.*

Seniors’ Residence... a place to pass away the time until it is time to pass away. That is the thinking of the majority, that out of sight and out of mind is best for all. Too often the care is questionable, the price is too expensive, the subsidised facilities are run down, the neighbours are less than welcoming, the activities are non-existent, or the opportunities to continue to contribute to society are frowned upon. But it doesn’t have to be like that. Quality care residences can be built without government funds (thus avoiding more taxation) and without uncaring ownership. New concepts in facilities, new thinking as to valorizing activities, and new ownership models... all these are possible using the synergy of a Global Village membership. *Dr.J.*

As a research institute, **S.E.I** must always seek out fresh “content”. To do this economically, and unbiasedly, we need your help as contributor “grunters”.

GVM ? It’s about having a caring, kind heart. It’s about thinking of others, not just ourselves or our family... or our country. It’s about being part of a civilization, not just a society. Join us today... become a **Global Villager**.
